Contents

Volume 283 (1992)

Research Letters

Comparison of DNA adduct detection between two enhancement methods of the ^{32}P-postlabelling assay in rat lung cells
W.-Z. Whong, J.D. Stewart and T. Ong (USA) 1

Evaluation of amitrole mutagenicity in *Salmonella typhimurium* using prostaglandin synthase activation
P. Croker, A.M. Bonin and N.H. Stacey (Australia) 7

V(D)J recombinase-mediated deletion of the *hprt* gene in T-lymphocytes from adult humans
J.C. Fuscoe, L.J. Zimmerman, K. Harrington-Brock, L. Burnette, M.M. Moore, J.A. Nicklas, J.P. O'Neill and R.J. Albertini (USA) 13

5-Azacytidine induces micronuclei in and morphological transformation of Syrian hamster embryo fibroblasts in the absence of unscheduled DNA synthesis
H. Stopper, R. Pechan and D. Schiffmann (Germany) 21

Preferential induction of AT-TA transversion, but not deletions, by chlorambucil at the *hisG428* site of *Salmonella typhimurium* TA102
M. Yamada, T. Sofuni and T. Nohmi (Japan) 29

Mutagenicity of nitro derivatives produced by exposure of dibenzofuran to nitrogen oxides
T. Watanabe and T. Hirayama (Japan) 35

Mutagenicity of nitro-polycyclic aromatic hydrocarbons with the nitro substituent situated at the longest molecular axis
S. Yu, D. Herreno-Saenz, D.W. Miller, F.F. Kadlubar and P.P. Fu (USA) 45

Induction of kinetochore positive and negative micronuclei in mouse bone marrow cells by salicylazosulfapyridine and sulfapyridine
K.L. Witt, R. Gudi and J.B. Bishop (USA) 53

Induction of chromosomal damage in mammalian cells in vitro and in vivo by sulfapyridine or 5-aminosalicylic acid
K.L. Witt, J.B. Bishop, A.F. McFee and V. Kumaroo (USA) 59

Effect of phototherapy on sister-chromatid exchange in infants with Down syndrome
F.-y. Wu, K. Iijima, D. Takiguchi, A. Nishida and M. Higurashi (Japan) 65

The frequencies of constitutional chromosome abnormalities in an apparently normal adult population
E.J. Tawn and R. Earl (UK) 69

Cytogenetic and molecular characterization of the mutagenicity of chlorambucil in V79 cells
G. Speit, W. Menz, C. Röscheisen and B. Köberle (Germany) 75

A straight correlation between mutagenic activity and β-galactosidase activity induced by monofunctional alkylating agents
M. Ohtsuka and K. Maekawa (Japan) 83

Influence of white blood cell count on SCE frequency in peripheral lymphocytes
M.A Bender, R.J. Preston, R.C. Leonard, B.E. Pyatt and P.C. Gooch (USA) 87

Inorganic arsenic effects on human lymphocyte stimulation and proliferation
M.E. Gonsebatt, L. Vega, L.A. Herrera, R. Montero, E. Rojas, M.E. Cebrián and P. Ostrosky-Wegman (Mexico) 91

Selective reactivities of isocyanates towards DNA bases and genotoxicity of methylcarbamoylation of DNA
N. Tamura, K. Aoki and M.-S. Lee (USA) 97

The genotoxicity status of sorbic acid, potassium sorbate and sodium sorbate
F.E. Würgler, J. Schlatter and P. Maier (Switzerland) 107

Sister-chromatid exchanges in human lymphocytes induced by dimethoate, omethoate, deltamethrin, benomyl and their mixture
P. Dolara, M. Salvadori, T. Capobianco and F. Torricelli (Italy) 113

Evaluation of the ligase chain reaction (LCR) for the detection of point mutations
I. Kälin, S. Shephard and U. Candrian (Switzerland) 119

Chinese hamster ovary cells deficient or proficient in O^6-alkylguanine-DNA alkyltransferase activity are equally sensitive to X-rays
C. Pardini, A. Piras, M. Voliani, G. Rainaldi, L. Mariani, P. Taverna, M. D'Incalci and L. Citti (Italy) 125

Efficiency of DNA–histone crosslinking induced by saturated and unsaturated aldehydes in vitro
J.R. Kuykendall and M.S. Bogdanffy (USA) 131

Lack of adaptive response to low doses of ionizing radiation in human lymphocytes from five different donors
J. Hain, R. Jaussi and W. Burkart (Switzerland, Germany) 137
Mechanism of mutagenicity by 5-hydroperoxymethyl-2′-deoxyuridine, an intermediate product of ionizing radiation, in bacteria. HPMdU bacterial mutagenicity and oxidation of DNA bases
U. Patel, R. Bhimani and K. Frenkel (USA) 145
Genotoxic activity of three carcinogens in peripheral blood erythrocytes of the newt *Pleurodeles waltl*
F. Le Curieux, D. Marzin and F. Erb (France) 157
Precise excision of transposons and point mutations induced by chemicals
O.Y. Rusina, E.E. Mirskaya, I.V. Andreeva and A.G. Skavronskaya (Russia) 161
The value of cytogenetic monitoring versus film dosimetry in the hot zone of a nuclear power plant
D. Kubelka, A. Fučić and S. Milković-Kraus (Croatia) 169
Proliferation index in bone marrow cells from severely malnourished rats during lactation
M. Betancourt, R. Ortíz and C. González (México) 173
Interactive cytogenetic effects on rat bone-marrow due to chronic ingestion of 2,5,2′,5′ and 3,4,3′,4′ PCBs
L.F. Meisner, B. Roloff, L. Sargent and H. Pitot (USA) 179
Reevaluation of the induction of specific-locus mutations in spermatogonia of the mouse by acrylamide
U.H. Ehling and A. Neuhäuser-Klaus (Germany) 185
Differences in sister-chromatid exchange frequency between homologous chromosomes in *Muntiacus muntjak*
A.J. Rachel, T. Sharma and V.V. Menon (India) 193
Cytogenetic monitoring of farm animals under conditions of environmental pollution
J. Rubeš, L. Borkovec, Z. Hořínová, J. Urbanová, I. Proroková and L. Kulíková (Czechoslovakia) 199
Potentiation of sodium chromate(VI)-induced chromosomal aberrations and mutation by vitamin B_2 in Chinese hamster V79 cells
M. Sugiyama, K. Tsuzuki, X. Lin and M. Costa (Japan, USA) 211
Cytogenetic effects of sodium azide encapsulated in liposomes on heteroploid cell cultures
P. Raicu and F. Mixich (Romania) 215
Chromosome analysis in a population living in an area of Germany with the highest fallout deposition from the Chernobyl accident
H. Braselmann, E. Schmid and M. Bauchinger (Germany) 221

Announcement 227

Research Letters
Sleep deprivation in human males and its effect on SCE rates in chromosomes – a preliminary study
R. Bamezai and N. Kumar (India) 229
Sister-chromatid exchanges are increased in epileptics, but not by sodium valproate
N. Taneja, K. Kucheria, S. Jain, J.K. Tandon and M.C. Maheshwari (India) 233
Spontaneous and induced levels of chromosomal aberration and sister-chromatid exchange in neurofibromatosis: No evidence of chromosomal hypersensitivity
P. Troilo, L.C. Strong, J.B. Little and W.W. Nichols (USA) 237
Inducible protective processes in animal systems. III. Adaptive response of meiotic cells of the grasshopper, *Poecilocerus pictus*, to a low dose of ethyl methanesulfonate
R. Mahmood and V. Vasudev (India) 243
Sex differences in micronucleus induction with hycanthone methanesulfonate in bone marrow cells of mice
U. Kliesch and I.-D. Adler (Germany) 249
Large deletions are tolerated at the *hprt* locus of in vivo derived human T-lymphocytes
J.C. Fuscoe, L.J. Zimmerman, K. Harrington-Brock and M.M. Moore (USA) 255
Detection of γ-ray-induced DNA damages in malformed dominant lethal embryos of the Japanese medaka (*Oryzias latipes*) using AP-PCR fingerprinting
Y. Kubota, A. Shimada and A. Shima (Japan) 263
An enhancement of the yield of X-ray-induced *Minute* mutations in the *c3G* female–*ywmf-2* male system of *Drosophila melanogaster*
T. Miyamoto (Japan) 271
Effect of 60-Hz magnetic fields on ultraviolet light-induced mutation and mitotic recombination in *Saccharomyces cerevisiae*
D.D. Ager and J.A. Radul (Canada) 279
Toxicity of some heavy metals in vivo and in vitro in *Helianthus annuus*
B. Chakravarty and S. Srivastava (India) 287
Detection of oxidative mutagens in an urban air-particulate extract: a preliminary study
M.E. Hoyer, G.J. Keeler and J.C. Ball (USA) 295

Contents, Vol. 283 (1992) 301
